It will be almost impossible for him to write from London (or Exeter to which the Office is now shifted) in every matter to this Govt and then for this Govt to write to the Residency. The business of the Trade Commissioner would suffer much and may come to a stand still. If approved, the above difficulty may be pointed out to the Residency with a request that the withdrawal of the permission regarding direct correspondence with foreign trade agents on Commercial matters may not be made applicable to the Trade Commissioner.

On Flag P. it was intimated that there should be no direct correspondence with Foreign Trade Agents. The B'D refers only to Correspondence with the Receiver of a Foreign Firm (in liquidation) and it does not come under Trade Agents. There does not seem to be any objection for directly Corresponding with the Receiver in the matter. Foreign Trade Agents are appointed by the respective Foreign Govts and the term does not mean an Agent of a Foreign Firm. If approved, the Chief Engineer will be intimated that there is no objection to direct correspondence with the Receiver.

S i r ,

Please refer to D.O. letter No.F.131/39 dated 29th August 1939 from the Hon'bl the Resident, to the Dewan, stating that the permission communicated in the Residency letter of 25th May 1936 regarding direct correspondence with foreign Trade Agents on commercial matters has been cancelled until further notice. The Govt. of Mysore presume that these instructions do not apply to the case of the Trade Commissioner for Mysore in London, as ~~otherwise it would lead to much hardship and inconvenience. I am to state that if it is intended to apply to him also, the business of the Govt. of Mysore will suffer very much~~ as it would be ~~impossible~~ impracticable for the Trade Commissioner to refer every matter to this Government for being in its turn referred to the Government of India through the Residency. The operations of the Trade Commissioner cover a wide range including Europe and America,

and as prompt disposal is absolutely essential in trade matters, it would paralyse the business if it is insisted that these new rules apply to the Trade Commissioner also.

The Government of Mysore are quite willing to cooperate with the Govt. of India during the present crisis, and it is not therefore their intention to create any difficulties in the matter. Necessary instructions have already been issued to all the trading concerns not to correspond directly in future with foreign Trade Agents. They however desire to point out that the applicability of this rule to their Trade Commissioner will create difficulties, which it is believed, was not the intention of the Govt. of India.
